

Building Material

The image displays a variety of building materials. On the left, three circular insets highlight specific components: a white, fluted decorative base; a section of a stone pillar with a mix of grey and brown tones; and a white, ornate baluster. The background features a large, two-story house with a prominent porch. The porch is supported by white columns and has a dark wooden railing. The house's exterior is finished with grey stone masonry, and the porch ceiling is made of dark wood. The overall scene is set in a lush, green environment with trees in the background.
