

Building Material

Specification

PU (Polyurethane) building material. It is a high-quality, durable material used for decorative elements. The material is made of PU foam, which is lightweight and easy to install. It is available in various colors and finishes, including white, grey, and stone. The material is also resistant to UV rays and weathering, making it ideal for outdoor use. The material is made of MDF (Medium Density Fiberboard) and is finished with a clear coat of PU. The material is also available in various sizes and shapes, including columns, balustrades, and bases. The material is also available in various finishes, including stone, wood, and marble. The material is also available in various colors, including white, grey, and brown. The material is also available in various sizes, including 10cm, 15cm, and 20cm. The material is also available in various shapes, including square, round, and oval. The material is also available in various finishes, including smooth, textured, and distressed. The material is also available in various colors, including white, grey, and brown. The material is also available in various sizes, including 10cm, 15cm, and 20cm. The material is also available in various shapes, including square, round, and oval. The material is also available in various finishes, including smooth, textured, and distressed. The material is also available in various colors, including white, grey, and brown.

1	Material	PU (Polyurethane) building material.
2	MOQ	100PCS
3	Color	White, Grey, Stone
4	Finish	Smooth, Textured, Distressed
5	Material	PU foam
6	Material	T / T
7	Material	High quality, durable material
8	Material	Lightweight and easy to install
9	Material	Resistant to UV rays and weathering
10	Material	Available in various colors and finishes
11	Material	Available in various sizes and shapes

Feature:

1. [High quality, durable material](#)
2. [Lightweight and easy to install](#)
3. [Resistant to UV rays and weathering](#)
4. [Available in various colors and finishes](#)
5. [Available in various sizes and shapes](#)

Products applications

Products applications

Our company

Finehope 2002 年 在 中 国 成 立 了 一 家 有 限 公 司 ， 32.The 公 司 的 总 面 积 为 7000 平 方 米 ， 总 投 资 额 为 4100 万 元 人 民 币 ， 公 司 的 总 面 积 为 1,000m2 平 方 米 。

Quality control

I. Quality Management

- ◆ Through the continuous push, maintenance and periodic review for the quality management system of ISO9001, ISO/TS 16949, to ensure the system works sufficiently, appropriately and effectively.
- ◆ Five core tools of ISO/TS 16949 : APQP, FMEA, MSA, SPC and PPAP. The effective use of these five core tools can make our quality control and overall management level improved greatly, finally to meet the requirements of customer.

II. Material Research and Develop

◆ Under a professional PU material R&D team, the products that has been put into production include MDI, TDI, HDI and PPDI etc polyether and polyester system formula, which covering all PU systems formula.
