

Feature:

replacement tractor seat cushion seats, the mower:

1. Genuine leather texture on the surface
2. fashion design with smooth lines
3. feel comfortable with the design of ergonomics
4. good elasticity
5. Easy Installation
6. High wear resistance
7. waterproof, anti-cracking, UV protection, anti-aging
8. low production cost, casting in one
9. protect the environment and degradable

Specification

The self-skin product is made in a single operation by means of a reaction injection molding (RIM), and therefore it has both tenacious and dense outer skin and the core of cellulite. The thickness of the skin formed form ranges from a few tenths to 5 mm and the skin of density 600 to 1200 kg / m³ while the inner core density is hundreds of kilograms per cubic meter. The skin layer and the core layer are an integral body. The continuous layer, smooth and soft skin can protect the heart in mechanical hard foam PU foam series of damage. Semi integral density varies and different hardness depending on the recipe. The seats of the mower is made from such materials which are waterproof, UV protection.

first name	China Meteorological polyurethane integral skin proof seats replacement tractor mower seat cushion
Type	cushion waterproof seat
Equipment	polyurethane (PU), mindh iron accessory
Density	180-200kg / m3
Size	L * W * H (mm): 431 * 429 * 63
Packaging	each in PE bag then in standard carton box
Payment term	30% T / T in advance, 70% before shipment
Min. Order	1000 pieces
Harbor	Xiamen
Certification	REACH, ROHS

Products applications

Our company

Finehope was founded in 2002 and the number of workers is greater than 100, and the number of administrative group is 41 with the 32. The company's average age has a modern factory covering an area of 7000 square meters, and it also has an office building with an area of 1000 square meters which combines modern and classical styles.

◆ Own the ability of independent improvement for the production equipments, and independent design and R & D ability of automatic moulds and jigs, lean automatic production lines.

FAQ

1. Why Finehope you choose?

Finehope is the most professional manufacturer of PU China, which has a professional R & amp; amp; D team, advanced production PU equipment, professional testing equipment and perfect quality management system. We have experience of cooperation of 12 with CAT, FIAT, HST, and MCP other famous companies. We provide a service counter in the R & amp; amp; D production to meet their customization needs.

2. What are the benefits of choosing Finehope?

1. Product quality assurance, guarantee delivery, good after-sales service
2. Cost effective, the effectiveness of rapid development, professional operation with integrity
3. will Finehope perform all the test analysis and then work on the test standards to reduce quality standard dispute between customers and manufacturers.
4. Lean the production management mode.
5. Help customers develop and design new products.

6. has rich experience in the design and processing of PU products.

7. is a Finehope high technology enterprise in China with national and international patents technology and intellectual property.

3. What PU products are the applications?

car, engineering machinery, sports equipment Fitness, Medical machines and everyday household items and so on.

4. What are the differences between Finehope and domestic peers?

1. Quality Insurance: advanced planning of product quality (APQP).
2. has Finehope rich experience in serving large international companies.
3. Is professional scientific research team of polyurethane material.
4. Is design, manufacturing and independent innovation of production capacity equipment and molds.
5. Engineering the team that is responsible for the quality assurance and quality control system.

5. What are the differences between Finehope and its European and US peers?

1. Does this sound and mature supply chain support
2. lower mold costs
3. High efficiency development and design ability and short duration of treatment.
4. Cost efficient and good service attitude.
