

Building Material

The image displays a variety of building materials. On the left, three circular insets highlight specific items: a white, fluted decorative base; a section of a stone pillar with a mix of grey and brown tones; and a white, ornate baluster. The background features a large, two-story house with a stone facade and a covered porch supported by white columns. The porch has a wooden railing and a dark wooden door. The overall scene is set in a lush, green environment with trees in the background.
