

Werkseitig maßgeschneiderte, wasserfeste Wickelunterlagen für Babys mit hoher Dichte

Kategorie: PU-Pad, matt

Material: PU-Polyurethan - Integralschaum

Dichte: 200-250 kg/m³. Wasserdichte Baby-Wickelaufgabe mit hoher Dichte für Babys

Form: Gemäß Kundenanforderungen für Produktdesign und kundenspezifische Form

Farbe: Schwarz, Grau und andere Farben können auf Anfrage angepasst werden.

Verpackung: Standardkarton

Zahlungsbedingungen: 30 % Anzahlung, Zahlung und Lieferung.

Mindestbestellmenge: 1.000 Stück

Versandort: China • Fujian • Xiamen

Erfüllen Sie die Zertifizierung: RoSH, REACH, EN71-3, Phthalic 6P

Sonstiges: Chinesische OEM- und Verarbeitungsfabriken, spezialisiert auf die Herstellung von PU-Produkten,

inklusive Zubehör (Eisen, Holz, Kunststoffe etc.).

Finehope hat seit 2003 kontinuierlich das ISO 9001-Zertifikat erhalten.

IATF16949-Zertifizierung:

IATF 16949-Zertifizierung:
Finehope hat 2021 die IATF16949 Automotive Quality Management Systems-Zertifizierung bestanden. Mehr als 50 Dokumente garantieren den Fortschritt der Entwicklung neuer Produkte, die Qualität, Lieferzeit und Kosten von Test- und Massenproduktionsprodukten.

Seit der Zusammenarbeit zwischen Finehope und Caterpillar im Jahr 2007 nutzt Finehope das Automotive-Qualitätsmanagementsystem für die Einführung neuer Produkte und nutzt dabei die fünf Tools SPC, MSA, FMEA, APQP und PPAP, die von Caterpillar-Führungskräften gelobt und seit langem etabliert wurden. Bisherige langjährige Partnerschaft.

Our Advantages

Forschungs- und Entwicklungskapazitäten für PU-Rohstoffe

Seit 2002 widmet sich Finehope der Entwicklung und Herstellung von PU-Formschaumprodukten. Unabhängige Forschung und Entwicklung von Formelmaterialeien und stabile Produktionskapazitäten sind die Grundlage für die Qualitätssicherung.

Finehope kann die Produktformel jederzeit an die individuellen Bedürfnisse der personalisierten Produkte des Kunden anpassen, wie z. B. die Anforderungen an Härte, Elastizität, Halt, Haptik, Dichte, Farbe und andere physikalische und chemische Eigenschaften, und kann Formulierungsanforderungen in Übereinstimmung mit den Gesetzen und Vorschriften verschiedener Länder festlegen. Natürlich muss eine gute Formel auch das beste Preis-Leistungs-Verhältnis berücksichtigen. Bei neuen Projekten ist die Fähigkeit, PU-Formulierungen zu entwickeln, eine Schlüsselvoraussetzung für die Sicherstellung der Qualität der Produktentwicklung, der Lieferzeit und der Kosten.

Wissenschaftliche Managementfähigkeit

Finehope betont die Bedeutung des Toyota-Produktionssystems und des Corporate-Coaching-Modells für die Optimierung der Managementeffizienz. Kontinuierliche Verbesserung: Die Effizienz und Qualität aller Mitarbeiter, des Managements und des Produktionspersonals wurden effektiv und kontinuierlich verbessert, die Management- und Produktionskosten wurden kontinuierlich gesenkt, aber wichtiger als „Effizienz und Kosten“ ist die Förderung des Mitarbeiterwachstums durch kontinuierliche Verbesserung, denn dies ist der Kern der nachhaltigen Unternehmensentwicklung.

Konstruktions- und Fertigungskapazitäten für Automatisierungsgeräte

Die Fähigkeit von Finehope, Automatisierungsgeräte zu entwerfen und herzustellen, ist in der Branche selten. Durch die Beteiligung an der Entwicklung neuer PU-Injektions-Mischgeräte und der Automatisierungsumwandlung der Produktionslinie soll sichergestellt werden, dass die demografische Dividende im Wettbewerb mit China verringert wird und die Arbeitskosten weiter steigen, kann auch die Produktionseffizienz verbessert und die Arbeits- und Materialkosten gesenkt werden. Darüber hinaus sind die kontinuierlichen Design- und Fertigungskapazitäten von Schlüsselgeräten wie Vorrichtungen, Spezialgeräten und automatischen Formen auch der Grund dafür, dass Finehope in allen Aspekten eine führende Position einnimmt. Die Fähigkeit von Finehope, kontinuierlich Kosten zu senken und innovative Produkte zu entwickeln, kann den Kunden dabei helfen, einen größeren Mehrwert zu schaffen. Daher ist Finehope ein zuverlässiger langfristiger Partner vieler Fortune-500-Unternehmen und führender Unternehmen der Branche.

Die Verfeinerung von Finehope reduziert den Ärger für die Kunden, da sie die Nachlässigkeit des menschlichen Prozesssystems und die Fähigkeit, kontinuierlich Berufserfahrung zu sammeln, verringert, wodurch sichergestellt werden kann, dass alle neuen Projekte in kürzester Zeit abgeschlossen werden.

FAQ

1. Warum Sie sich für Finehope entscheiden?

Finehope ist der professionellste PU-Hersteller in China, der über ein professionelles Forschungs- und Entwicklungsteam, fortschrittliche PU-Produktionsanlagen, professionelle Testgeräte und ein perfektes Qualitätsmanagementsystem verfügt. Wir verfügen über 12 Jahre Erfahrung in der Zusammenarbeit mit CAT, FIAT, TVH, STIGA und anderen namhaften Unternehmen. Wir bieten ihnen einen One-Step-Service von der Forschung und Entwicklung bis zur Produktion, um ihre individuellen Anforderungen zu erfüllen.

2. Welche Vorteile bietet die Wahl von Finehope?

- 1) Produktqualitätssicherung, Liefergarantie, guter Kundendienst.
- 2) Kostengünstige, schnelle Entwicklungseffizienz, professioneller Betrieb mit Integrität.
- 3) Finehope führt alle Testanalysen durch und erarbeitet dann Teststandards, um Streitigkeiten zwischen den Qualitätsstandards zu reduzieren Kunden und Hersteller.
- 4) Lean-Produktionsmanagementmodus.
- 5) Helfen Sie Kunden bei der Entwicklung und Gestaltung neuer Produkte.
- 6) Verfügt über umfangreiche Erfahrung in der Entwicklung und Verarbeitung von PU-Produkten.
- 7) Finehope ist ein High-Tech-Unternehmen in China mit inländischen und internationalen Erfindungspatenten für Technologie und geistiges Eigentum Eigentum.

3. Was ist der Unterschied zwischen Finehope und einheimischen Kollegen?

- 1) Qualitätssicherung: Advanced Quality Planning (APQP).

- 2) Finehope verfügt über umfangreiche Erfahrung in der Betreuung internationaler Großunternehmen.
- 3) Verfügt über ein professionelles wissenschaftliches Forschungsteam für Polyurethan-Material.
- 4) Verfügt über unabhängige Design-, Fertigungs- und Innovationsfähigkeiten für Produktionsanlagen und Formen.
- 5) Verfügt über ein Ingenieurteam, das für das Qualitätssicherungssystem und die Qualitätskontrolle verantwortlich ist.

4. Was sind die Unterschiede zwischen Finehope und europäischen und US-amerikanischen Kollegen?

- 1) Verfügt über eine perfekte und ausgereifte unterstützende Lieferkette.
- 2) Geringere Formkosten.
- 3) Hohe Effizienz der Entwicklungs- und Designfähigkeit und kurze Prozesszeit.
- 4) Kostenvorteil und gute Serviceeinstellung.

5. Welche Einsatzmöglichkeiten gibt es für PU-Produkte?

Autos, technische Maschinen, Sport-Fitnessgeräte, medizinische Maschinen und alltägliche Haushaltsgegenstände und so weiter.

About us

Our Certification

Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death.

Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace."

Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as a new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 2020. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM)
High Pressure Machine
KRAUSS MAFFEI
Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
