**Product Inspection
Standard Setting**

Free Product Inspection Standard Setting:
In addition to the usual quantification of product physical properties and appearance standards, we will add REACH, RoHS, FDA, CA-65, or CFC Free to the standards according to customer needs.

Free Mould Opening:
Large order quantity with mould cost free.

Free 3D Design:
Finehope help customer design the desired product or modify the design for free.

Free DFM/A Report:
Finehope will show details and solutions of manufacturability and assemblability through PPT to help customers reduce trouble.

Schiuma di poliuretano PU Teakondow Martial Art Protect Elmetto per la protezione della testa

Categoria: CASCO PU

Materiale: PU Poliuretano - Integral Skin Foam

Densità: 200-250 kg/m³

Forma: secondo i requisiti del cliente per la progettazione del prodotto e lo stampo personalizzato

Colore: nero, grigio e altri colori possono essere personalizzati su richiesta.

Applicazione: i bambini si siedono aiutano il sedile del pavimento

Imballaggio: CARTONE standard

Termini di pagamento: acconto del 30%, pagamento e consegna.

MOQ: 200 pezzi

Luogo di spedizione: Cina • Fujian • Xiamen

Soddisfa la certificazione: Rosh, Reach, EN71-3, Phthalic 6P

Altro: OEM cinesi e fabbriche di trasformazione, specializzate nella produzione di prodotti Pu, Compresi gli accessori (ferro, legno, plastica, ecc.).

Finehope HA OTTENUTO LA Certificazione ISO 9001 Continuativamente DAL 2003.

Certificazione IATF16949:

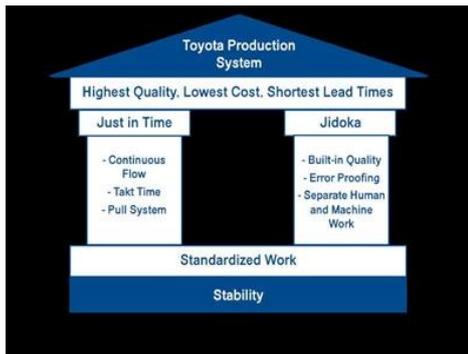

[Cina Fornitore di copricapo medico da rugby in poliuretano](#) Finehope ha superato la certificazione dei sistemi di gestione della qualità automobilistica IATF16949 nel 2021. Più di 50 documenti garantiscono il progresso dello sviluppo di nuovi prodotti, la qualità, i tempi di consegna e il costo dei prodotti di prova e di produzione di massa. Fin dalla collaborazione tra Finehope e Caterpillar nel 2007, Finehope ha utilizzato il sistema di gestione della qualità automobilistica per l'introduzione di nuovi prodotti, utilizzando i cinque strumenti di SPC, MSA, FMEA, APQP e PPAP, che hanno ricevuto elogi dai dirigenti Caterpillar e stabilito una partnership a lungo termine che conosco.

Our Advandages

Capacità di ricerca e sviluppo di materie prime PU

DAL 2002, Finehope È STATA IMPEGNATA NELLA PROGETTAZIONE E NELLA REALIZZAZIONE DI PRODOTTI IN PU STAMPATO IN SCHIUMA. La ricerca indipendente e lo sviluppo di materiali di formula e la capacità di produzione stabile sono la base per la garanzia della qualità. Finehope PUÒ ADATTARE LA FORMULA DEL PRODOTTO IN QUALSIASI MOMENTO IN BASE ALLE ESIGENZE PERSONALIZZATE DEI CLIENTI "Prodotti personalizzati, come i requisiti di durezza, elasticità, supporto, tatto, densità, colore e altre proprietà fisiche e chimiche, e possono soddisfare i requisiti di formulazione in conformità con le leggi e i regolamenti di vari paesi. Naturalmente, in una buona formula devono anche considerare le migliori prestazioni in termini di costi. urante lo sviluppo del prodotto qualità, tempi di consegna e costi.

Capacità di gestione scientifica

Finehope sottolinea l'importanza del sistema di produzione Toyota e del modello di coaching aziendale per ottimizzare l'efficienza gestionale. Miglioramento continuo L'efficienza e la qualità di tutti i dipendenti, della direzione e del personale di produzione sono state migliorate in modo efficace e continuo, i costi di gestione e di produzione sono stati continuamente ridotti, ma più importante dell'efficienza e del costo è la coltivazione della crescita dei dipendenti attraverso il miglioramento continuo, perché questo è il fulcro dello sviluppo sostenibile aziendale.

Capacità di progettazione e produzione di apparecchiature di automazione

[Fabbrica cinese di protezioni per la testa del taekwondo](#) La capacità di Finehope di progettare e produrre apparecchiature di automazione è rara nel settore. Partecipando alla progettazione di nuove apparecchiature di miscelazione per iniezione di PU e alla trasformazione dell'automazione della linea di produzione, per garantire che sotto la concorrenza del dividendo demografico cinese sia ridotto e i costi del lavoro continuo a salire, anche l'efficienza produttiva può essere migliorata, i costi del lavoro e dei materiali possono essere ridotti. Inoltre, le continue capacità di progettazione e produzione di attrezzature chiave come impianti, attrezzature speciali e stampi automatici sono anche i motivi per cui Finehope è in una posizione di leadership in tutti gli aspetti. La capacità di Finehope di ridurre continuamente i costi e innovare i prodotti può aiutare i clienti a portare maggiore valore. Pertanto, è un partner affidabile a lungo termine di molte aziende Fortune 500 e aziende leader del settore.

La raffinatezza di Finehope riduce i problemi per i clienti, perché riduce la negligenza sul sistema di processi umani e la capacità di accumulare continuamente esperienza professionale, che può garantire che tutti i nuovi progetti siano completati nel minor tempo possibile.

FAQ

1. Perché hai scelto Finehope?

[Produttore cinese di caschi](#) Finehope è il produttore di PU più professionale in Cina, che dispone di un team di ricerca e sviluppo professionale, attrezzature avanzate per la produzione di PU, apparecchiature di collaudo professionali e un perfetto sistema di gestione della qualità. Abbiamo 12 anni di esperienza di cooperazione con cat, Fiat, TVH, Stiga e altre imprese famose. Forniamo loro un servizio in un'unica fase, dalla ricerca e sviluppo alla produzione, per soddisfare le loro esigenze di personalizzazione.

2. Quali sono i vantaggi di scegliere Finehope?

- 1) Garanzia di qualità del prodotto, garanzia di consegna, buon servizio post-vendita.
- 2) Efficienza di sviluppo economica e veloce, funzionamento professionale con integrità.
- 3) Finehope condurrà tutte le analisi dei test e quindi elaborerà gli standard di test per ridurre le controversie sugli standard di qualità tra Clienti e Produttori.
- 4) Modalità di gestione della produzione snella.
- 5) Aiutare i clienti a sviluppare e progettare nuovi prodotti.
- 6) Ha una ricca esperienza nella progettazione e nella lavorazione dei prodotti Pu.
- 7) Finehope È un'impresa high-tech in Cina con brevetti nazionali e internazionali di invenzione tecnologica e intellettuale proprietà.

3. Qual è la differenza tra Finehope e Domestic Peers?

- 1) Garanzia di qualità: pianificazione avanzata della qualità (APQP).
- 2) Finehope ha una ricca esperienza nel servire grandi imprese internazionali.
- 3) Ha un team di ricerca scientifica professionale di materiale poliuretano.
- 4) Ha capacità di progettazione, produzione e innovazione indipendenti di attrezzature di produzione e stampi.
- 5) HA UN TEAM DI INGEGNERI CHE È RESPONSABILE DEL SISTEMA DI ASSICURAZIONE DELLA QUALITÀ E DEL CONTROLLO DELLA QUALITÀ.

4. Quali sono le differenze tra Finehope e colleghi europei e statunitensi?

- 1) Ha una catena di fornitura di supporto perfetta e matura.
- 2) Riduzione dei costi di stampo.
- 3) Elevata efficienza di sviluppo e capacità di progettazione e tempi di processo brevi.
- 4) Vantaggio di costo e buona attitudine al servizio.

5. Quali sono le applicazioni dei prodotti Pu?

Auto, macchinari di ingegneria, attrezzature per il fitness sportivo, macchinari medici e articoli per la casa quotidiana e così via.

About us

Our Certification

Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death. Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace." Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 20-20. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM) High Pressure Machine KRAUSS MAFFEI Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

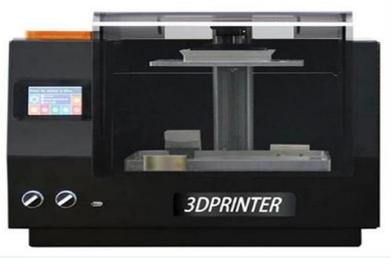

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
