

Seggiolino per bambini in schiuma di poliuretano stampato in fabbrica personalizzabile

Categoria: sedile a pavimento in PU, tappetino

Materiale: PU Poliuretano - Schiuma a pelle integrale

Densità: 200-250 kg/m3

Forma: in base alle esigenze del cliente per la progettazione del prodotto e lo stampo personalizzato

Colore: nero, grigio e altri colori possono essere personalizzati su richiesta.

Applicazione: bambini sedersi aiuto pavimento sedile

Imballaggio: cartone standard

Termini di pagamento: acconto del 30%, pagamento e consegna.

MOQ: 200 pezzi

Luogo di spedizione: Cina • Fujian • Xiamen

Soddisfa la certificazione: RoSH, REACH, EN71-3, ftalico 6P

Altro: OEM cinesi e fabbriche di trasformazione, specializzate nella produzione di prodotti PU,

compresi gli accessori (ferro, legno, plastica, ecc.).

Finehope ha ottenuto la certificazione ISO 9001 ininterrottamente dal 2003.

Certificazione IATF16949:

Finehope ha superato la certificazione dei sistemi di gestione della qualità automobilistica IATF16949 nel 2021. Più di 50 documenti garantiscono l'avanzamento dello sviluppo di nuovi prodotti, la qualità, i tempi di consegna e il costo dei prodotti di prova e di produzione di massa.

Fin dalla collaborazione tra Finehope e Caterpillar nel 2007, Finehope ha utilizzato il sistema di gestione della qualità automobilistica per l'introduzione di nuovi prodotti, utilizzando i cinque strumenti di SPC, MSA, FMEA, APQP e PPAP, che hanno ricevuto elogi dai dirigenti Caterpillar e stabilito finora una partnership a lungo termine.

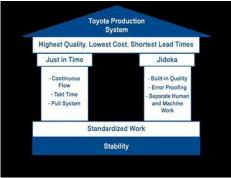

Our Advandages

Capacità di ricerca e sviluppo delle materie prime PU

Dal 2002, Finehope si è impegnata nella progettazione e produzione di prodotti in schiuma stampata in PU. La ricerca e lo sviluppo indipendenti di materiali formula e una capacità produttiva stabile sono la base per la garanzia della qualità. Finehope può adattare la formula del prodotto in qualsiasi momento in base alle esigenze personalizzate dei prodotti personalizzati dei clienti, come i requisiti di durezza, elasticità, supporto, tatto, densità, colore e altre proprietà fisiche e chimiche, e può fare i requisiti di formulazione in conformità con le leggi e i regolamenti di vari paesi. Naturalmente, una buona formula deve anche considerare le migliori prestazioni in termini di costi.

Capacità di gestione scientifica

Finehope sottolinea l'importanza del Toyota Production System e del Corporate Coaching Model per ottimizzare l'efficienza gestionale. Miglioramento continuo l'efficienza e la qualità di tutti i dipendenti, della direzione e del personale di produzione sono state migliorate in modo efficace e continuo, i costi di gestione e produzione sono stati continuamente ridotti, ma più importante dell' efficienza e dei costi è la coltivazione della crescita dei dipendenti attraverso il miglioramento continuo, perché questo è il fulcro dello sviluppo sostenibile aziendale.

Capacità di progettazione e produzione di apparecchiature di automazione

La capacità di Finehope di progettare e produrre apparecchiature di automazione è rara nel settore. Partecipando alla progettazione di nuove apparecchiature di miscelazione per iniezione PU e alla trasformazione dell'automazione della linea di produzione, per garantire che sotto la concorrenza del dividendo demografico cinese sia ridotto e il costo del lavoro continui a salire, anche l'efficienza produttiva può essere migliorata, i costi del lavoro e dei materiali possono essere ridotti. Inoltre, le continue capacità di progettazione e produzione di attrezzature chiave come infissi, attrezzature speciali e stampi automatici sono anche le ragioni per cui Finehope è in una posizione di leadership in tutti gli aspetti.

La capacità di Finehope di ridurre continuamente i costi e innovare i prodotti può aiutare i clienti a portare maggiore valore. Pertanto, è un partner affidabile a lungo termine di molte aziende Fortune 500 e aziende leader del settore.

La raffinatezza di Finehope riduce i problemi per i clienti, perché riduce la negligenza sul sistema di processo umano e la capacità di accumulare continuamente esperienza professionale, che può garantire che tutti i nuovi progetti siano completati nel più breve tempo possibile.

Cooperation experience

FAQ

1. Perché hai scelto Finehope?

Finehope è il produttore di PU più professionale in Cina, che dispone di un team di ricerca e sviluppo professionale, apparecchiature di produzione di PU avanzate, apparecchiature di collaudo professionali e un perfetto sistema di gestione della qualità. Abbiamo 12 anni di esperienza di cooperazione con CAT, FIAT, TVH, STIGA e altre imprese famose. Forniamo loro un servizio in un unico passaggio dalla ricerca e sviluppo alla produzione per soddisfare le loro esigenze di personalizzazione.

2. Quali sono i vantaggi di scegliere Finehope?

- 1) Garanzia della qualità del prodotto, garanzia di consegna, buon servizio post-vendita.
- 2) Efficienza di sviluppo economica e veloce, funzionamento professionale con integrità.
- 3) Finehope condurrà tutte le analisi dei test e quindi elaborerà gli standard di test per ridurre le controversie sugli standard di qualità tra clienti e produttori.
- 4) Modalità di gestione della produzione snella.
- 5) Aiutare i clienti a sviluppare e progettare nuovi prodotti.
- 6) Ha una ricca esperienza nella progettazione e lavorazione di prodotti PU.
- 7) Finehope è un'impresa high-tech in Cina con brevetti nazionali e internazionali di invenzione tecnologica e intellettuale proprietà.

3. Qual è la differenza tra Finehope e colleghi domestici?

- 1) Assicurazione della qualità: pianificazione avanzata della qualità (APQP).
- 2) Finehope ha una ricca esperienza nel servire le grandi imprese internazionali.
- 3) Ha un gruppo di ricerca scientifica professionale di materiale poliuretanico.
- 4) Ha capacità di progettazione, produzione e innovazione indipendenti di attrezzature e stampi di produzione.
- 5) Ha un team di ingegneri che è responsabile del sistema di garanzia della qualità e del controllo di qualità.

4. Quali sono le differenze tra Finehope e i colleghi europei e statunitensi?

- 1) Ha una catena di approvvigionamento di supporto perfetta e matura.
- 2) Minori costi di stampaggio.
- 3) Elevata efficienza di sviluppo e capacità di progettazione e tempi di processo brevi.
- 4) Vantaggio di costo e buona attitudine al servizio.

5. Quali sono le applicazioni dei prodotti PU?

Auto, macchinari di ingegneria, attrezzature per il fitness sportivo, macchinari medici e articoli per la casa quotidiani e così via.

About us

Our Certification (

Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier.

Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's indepth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growthoriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death.

Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace."

Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damagend and affect delivery.

Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau.

General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are

an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 20-20. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries.

Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary.

Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products.

Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic pulses of fully automatic production ines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 20-16. CNC (Computer Numerically Controlled) machining is a manufacturing process in which preprogrammed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 20-15. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
