

Vendita calda PUR Schiuma Baby Diaper Pad Pad per bambino

Categoria: PUL PAD, MAT

Materiale: poliuretano PU - schiuma pelle integrale

Densità: 200-250kg / m3hot vendita tappetino impermeabile per bambini ad alta densità per bambino

Forma: secondo le esigenze del cliente per il design del prodotto e la muffa personalizzata

Colore: nero, grigio e altri colori possono essere personalizzati su richiesta.

Imballaggio: cartone standard

Termini di pagamento: deposito del 30%, pagamento e consegna.

MOQ: 1.000 PZ.

Posizione di spedizione: Cina • Fujian • Xiamen

Incontra la certificazione: Rosh, REACH, EN71-3, PHTHALIC 6P

Altro: fabbriche cinesi dell'OEM e della lavorazione, specializzandosi nella produzione di prodotti PU,

compresi gli accessori (ferro, legno, plastica, ecc.).

Finehope ha ottenuto il certificato ISO 9001 ininterrottamente dal 2003.

Certificazione IATF16949:

Finehope ha superato la certificazione dei sistemi di gestione della qualità IATF16949 Automotive nel 2021. Più di 50 documenti garantiscono i progressi del nuovo sviluppo del prodotto, la qualità, i tempi di consegna e il costo dei prodotti di prova e di produzione di massa.

Dalla cooperazione tra Finehope e Caterpillar nel 2007, Finehope ha utilizzato il sistema di gestione della qualità automobilistico per la nuova introduzione del prodotto, utilizzando i cinque strumenti di SPC, MSA, FMEA, APQP e PPAP, che hanno vinto lodi dai dirigenti di Caterpillar e stabiliti a lungo -Term La partnership fino ad ora.

Our Advandages

Capacità di ricerca e sviluppo delle materie prime PU

Dal 2002 Finehope è stato impegnato nel design e nella produzione di prodotti in schiuma stampati in PU. Ricerche e sviluppo indipendenti di materiali di formula e capacità di produzione stabile sono la base per la garanzia della qualità. Finehope può regolare la formula del prodotto in qualsiasi momento in base alle esigenze personalizzate dei prodotti personalizzati dei clienti, come i requisiti per la durezza, l'elasticità, il supporto, la sensazione, la densità, il colore e altre proprietà fisiche e chimiche, e possono rendere i requisiti di formulazione in conformità con le leggi e i regolamenti di vari paesi. Naturalmente, una buona formula deve anche considerare le migliori prestazioni dei costi. Per i nuovi progetti, la capacità di sviluppare formulazioni PU è una condizione chiave per garantire la qualità dello sviluppo del prodotto, i tempi di consegna e il costo.

Attrezzature per l'automazione Design e funzionalità di produzione

La capacità di Finehope di progettare e produrre apparecchiature di automazione è rara nel settore. Partecipando alla progettazione di nuove apparecchiature di miscelazione di iniezione PU e la trasformazione dell'automazione della linea di produzione, per garantire che nell'ambito della concorrenza del dividendo demografico cinese sia ridotta e i costi del lavoro continuano a salire, l'efficienza produttiva può essere migliorata, lavoro e materiale I costi possono essere ridotti. Inoltre, la progettazione continua e le capacità produttive di apparecchiature chiave come infissi, attrezzature speciali e stampi automatici sono anche i motivi per cui Finehope è in una posizione di leadership in tutti gli aspetti. La capacità di Finehope di ridurre continuamente i costi e i prodotti innovativi può aiutare i clienti a portare un valore maggiore. Pertanto, è un partner a lungo termine affidabile di molte aziende di Fortune 500 e aziende leader nel settore.

Capacità di gestione scientifica

Finehope sottolinea l'importanza del sistema di produzione Toyota e del modello di coaching aziendale per ottimizzare l'efficienza di gestione. Miglioramento continuo L'efficienza e la qualità di tutti i dipendenti, la gestione e il personale di produzione sono stati efficacemente e continuamente migliorati, la gestione ei costi di produzione sono stati continuamente ridotti, ma più importanti dell'efficienza e dei costi è la coltivazione della crescita dei dipendenti attraverso il miglioramento continuo, perché questo è il nucleo dello sviluppo sostenibile aziendale.

La raffinatezza di Finehope riduce il problema per i clienti, perché riduce la negligenza sul sistema di processo umano e la capacità di accumulare continuamente l'esperienza professionale, che può garantire che tutti i nuovi progetti siano completati nel più breve tempo possibile.

Cooperation experience

FAQ

1. Perché scegli Finehope?

Finehope è il produttore PU più professionale in Cina, che ha un team di ricerca e sviluppo professionale, attrezzature per la produzione di PU avanzate, apparecchiature di prova professionali e perfetto sistema di gestione della qualità. Abbiamo un'esperienza di cooperazione a 12 anni con Cat, Fiat, TVH, STIGA e altre imprese famose. Forniamo loro un servizio one-step da R & S alla produzione per soddisfare le loro esigenze di personalizzazione.

2. Quali sono i vantaggi di scegliere Finehope?

- 1) Assicurazione della qualità del prodotto, Garanzia di consegna, buon servizio post-vendita.
- 2) Efficienza economica, rapida efficienza di sviluppo, operazione professionale con integrità.
- 3) Finehope condurrà tutte le analisi dei test e quindi elaborare gli standard di prova per ridurre la disputa standard di qualità tra clienti e produttori.
- 4) Modalità di gestione della produzione snella.
- 5) Aiuta i clienti a sviluppare e progettare nuovi prodotti.
- 6) Ha una ricca esperienza nella progettazione e nella lavorazione dei prodotti PU.
- 7) Finehope è un'impresa high-tech in Cina con la tecnologia internazionale di brevetti invenzione e intellettuale proprietà.

3. Qual è la differenza tra Finehope e coetanei domestici?

- 1) Assicurazione della qualità: pianificazione della qualità avanzata (APQP).
- 2) Finehope ha una ricca esperienza nel servire grandi imprese internazionali.
- 3) ha un team di ricerca scientifica professionale di materiale poliuretanico.
- 4) ha una capacità di progettazione, produzione e innovazione indipendente di attrezzature di produzione e stampi.
- 5) ha un team di ingegnere responsabile del sistema di garanzia della qualità e del controllo della qualità.

4. Quali sono le differenze tra i colleghi Finehope ed Europeo e U.S?

- 1) ha una catena di approvvigionamento perfetta e matura.
- 2) Costi inferiori dello stampo.
- 3) Elevata efficienza della capacità di sviluppo e di progettazione e breve tempo di processo.
- 4) Vantaggio dei costi e buon atteggiamento di servizio.

5. Quali sono le applicazioni dei prodotti PU?

Auto, macchine ingegneristiche, attrezzature per il fitness sportiva, macchine mediche e articoli per la casa quotidiana e così via.

About us

Our Certification

Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death.

Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace."

Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 2020. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM)
High Pressure Machine
KRAUSS MAFFEI
Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
