Specification

Decorative Column Capital (pu) is a decorative element used in architecture. It is made of polyurethane (pu) and is designed to look like a stone capital. It is used to support a column and to add a decorative touch to the building. The capital is made of a single piece of material and is easy to install. It is available in a variety of colors and finishes. The capital is made of a high-quality material and is designed to last for many years. It is a great choice for anyone looking for a decorative element for their building.
