

Building Material

Feature:

- 1. [High quality material](#)
- 2. [Easy to install](#)
- 3. [Durable and long lasting](#)
- 4. [Wide range of colors and finishes](#)
- 5. [Affordable price](#)

Specification

Our products (PU) are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes. PU products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes. MDF products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes. AST.

1	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
(2)	MOQ	100PCS
3	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
4	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
(5)	Item	PU products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
(6)	Item	T / T
7	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
8	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
9	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
(10)	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.
(11)	Item	Our products are made of high quality material. They are durable, easy to install, and long lasting. They are available in a wide range of colors and finishes.

Quality control

Quality Management

Material Research and Develop

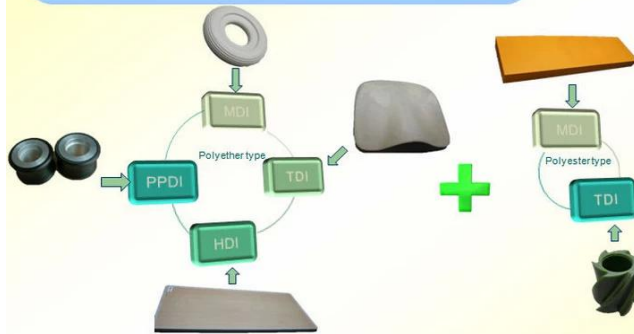

I. Quality Management

- ◆ Through the continuous push, maintenance and periodic review for the quality management system of ISO9001, ISO/TS 16949, to ensure the system works sufficiently, appropriately and effectively.
- ◆ Five core tools of ISO/TS 16949 : APQP, FMEA, MSA, SPC and PPAP. The effective use of these five core tools can make our quality control and overall management level improved greatly, finally to meet the requirements of customer.

II. Material Research and Develop

◆ Under a professional PU material R&D team, the products that has been put into production include MDI, TDI, HDI and PPDI etc polyether and polyester system formula, which covering all PU systems formula.
