- 5. [Wide Range of Colors](#)

Specification

Our products (PU) are made of high quality polyurethane. They are light weight, easy to install, and can be used for both indoor and outdoor applications. PU products are available in a wide range of colors and finishes. They are also available in different sizes and shapes. The products are made of high quality MDF and are finished with a high quality paint. They are also available in different colors and finishes. The products are made of high quality MDF and are finished with a high quality paint. They are also available in different colors and finishes. The products are made of high quality MDF and are finished with a high quality paint. They are also available in different colors and finishes.

1	Item	Our products (PU), are made of high quality polyurethane.
2)	MOQ	100PCS
3	Item	High Quality
4	Item	Durable
5)	Item	Easy to Install
6)	Item	Low Maintenance
7	Item	Wide Range of Colors
8	Item	High Quality
9	Item	Durable
10)	Item	Easy to Install
11)	Item	Low Maintenance

Quality control

Quality Management

Material Research and Develop

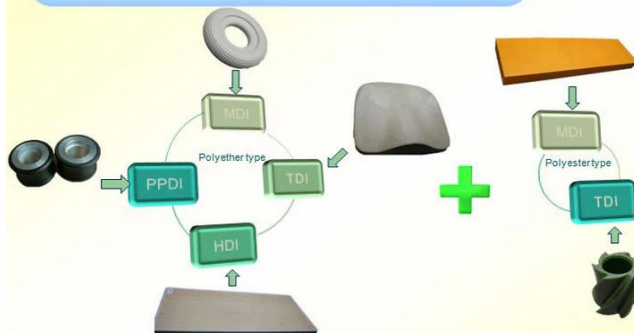

I. Quality Management

- ◆Through the continuous push, maintenance and periodic review for the quality management system of ISO9001, ISO/TS 16949, to ensure the system works sufficiently, appropriately and effectively.
- ◆Five core tools of ISO/TS 16949 : APQP, FMEA, MSA, SPC and PPAP. The effective use of these five core tools can make our quality control and overall management level improved greatly, finally to meet the requirements of customer.

II. Material Research and Develop

◆ Under a professional PU material R&D team, the products that has been put into production include MDI, TDI, HDI and PPDI etc polyether and polyester system formula, which covering all PU systems formula.
