

Hot koop pur schuim baby luier veranderende pad voor baby

Categorie: Pur pad, mat

Materiaal: PU-polyurethaan - integraal huidschuim

Dichtheid: 200-250kg / m<sup>3</sup> hot verkoop hoge dichtheid baby waterdichte veranderende mat voor baby

Vorm: volgens klantvereisten voor productontwerp en aangepaste vorm

Kleur: zwart, grijs en andere kleuren kunnen op verzoek worden aangepast.

Verpakking: standaard karton

Betalingsvoorwaarden: aanbetaling van 30%, betaling en levering.

MOQ: 1.000PCS

Verzendlocatie: China • Fujian • Xiamen

Ontmoet de certificering: ROSH, REACH, EN71-3, fthalic 6p

Anders: Chinese OEM- en verwerkingsfabrieken, gespecialiseerd in de productie van PU-producten, inclusief accessoires (ijzer, hout, kunststoffen, enz.).

**Finehope heeft sinds 2003 ISO 9001-certificaat verkregen.**

**IATF16949 Certificering:**  
 Finehope heeft de IATF16949 Automotive Quality Management Systems-certificering in 2021 geslaagd. Meer dan 50 documenten garanderen de voortgang van nieuwe productontwikkeling, de kwaliteit, levertijd en kosten van proef- en massaproductieproducten. Sinds de samenwerking tussen Finehope en Caterpillar in 2007 heeft Finehope het automotive-kwaliteitsbeheersysteem gebruikt voor de introductie van het nieuwe product, met behulp van de vijf gereedschappen van SPC, MSA, FMEA, APQP en PPAP, die lof hebben gewonnen van Caterpillar-leidinggevenden en een lange tijd vastgesteld-TER-partnerschap tot nu toe.

## Our Advandages

**PU grondstoffenonderzoeks- en ontwikkelingsmogelijkheden**  
 Sinds 2002 is Finehope toegewijd aan het ontwerp en de productie van PU-gegoten schuimproducten. Onafhankelijk onderzoek en ontwikkeling van formule-materialen en stabiele productiecapaciteit zijn de basis voor kwaliteitsborging. Finehope kan de productformule op elk gewenst moment aanpassen aan de aangepaste behoeften van de gepersonaliseerde producten van klanten, zoals de vereisten voor hardheid, elasticiteit, steun, gevoel, dichtheid, kleur en andere fysische en chemische eigenschappen, en kunnen formuleringsvereisten in overeenstemming brengen met de wet- en regelgeving van verschillende landen. Natuurlijk moet een goede formule ook rekening houden met de beste kostenprestaties. Voor nieuwe projecten is het vermogen om PU-formuleringen te ontwikkelen een belangrijke voorwaarde voor het waarborgen van de kwaliteit van het productontwikkeling, de levertijd en -kosten.

**Automatiseringsapparatuur Ontwerp en productiecapaciteiten**  
 Finehope's vermogen om automatiseringsapparatuur te ontwerpen en te vervaardigen is zeldzaam in de industrie. Door deel te nemen aan het ontwerp van nieuwe PU-injectie-mengapparatuur en de automatiseringstransformatie van de productielijn, om ervoor te zorgen dat onder de concurrentie van het demografische dividend van China worden verminderd en de arbeidskosten blijven stijgen, kan de productie-efficiëntie ook worden verbeterd, arbeid en materiaal Kosten kunnen worden verminderd. Bovendien zijn het continue ontwerp- en productiemogelijkheden van belangrijke apparatuur zoals armaturen, speciale uitrusting en automatische mallen ook de redenen waarom Finehope in alle aspecten in een leidende positie bevindt. Het vermogen van Finehope om de kosten en innovatie producten continu te verlagen, kan klanten helpen meer waarde te brengen. Daarom is het een betrouwbare partner op lange termijn van veel Fortune 500-bedrijven en toonaangevende bedrijven in de branche.

**Wetenschappelijk managementvermogen**

Finehope benadrukt het belang van het Toyota-productiesysteem en het Corporate Coaching-model om de managementefficiëntie te optimaliseren. Continue verbetering De efficiëntie en kwaliteit van alle medewerkers, management- en productiepersoneel zijn effectief en continu verbeterd, management- en productiekosten zijn continu verlaagd, maar belangrijker dan efficiëntie en kosten is de teelt van de groei van werknemers door middel van continue verbetering, omdat dit is de kern van bedrijfsontwikkeling van het bedrijf.

De verfijning van Finehope vermindert het probleem voor klanten, omdat het de nalatigheid op het menselijke processysteem vermindert en de mogelijkheid om de professionele ervaring voortdurend te accumuleren, die ervoor kan zorgen dat alle nieuwe projecten in de kortste tijd worden voltooid.

## FAQ

### 1. Waarom kies je Finehope?

Finehope is de meest professionele PU-fabrikant in China, die een professioneel R & D-team, geavanceerde PU-productie-apparatuur, professionele testapparatuur en perfect kwaliteitsbeheersysteem heeft. We hebben 12-jarige samenwerking-ervaring met Cat, Fiat, TVH, Stiga en andere beroemde ondernemingen. We bieden hen een stappendienst van R & D tot productie om aan hun aanpassingsbehoeften te voldoen.

## **2. Wat zijn de voordelen van het kiezen van Finehope?**

- 1) Productkwaliteitsborging, leveringsgarantie, goede after-sales service.
- 2) Kosteneffectieve, snelle ontwikkelingsefficiëntie, professionele werking met integriteit.
- 3) Finehope voert alle testanalyse uit en werkt vervolgens testnormen uit om de kwaliteitsnorm geschil tussen te verminderen Klanten en fabrikanten.
- 4) MOER-productiebeheermodus.
- 5) Help klanten nieuwe producten te ontwikkelen en te ontwerpen.
- 6) heeft een rijke ervaring in het ontwerp en de verwerking van PU-producten.
- 7) Finehope is een high-tech onderneming in China met binnenlandse en heeft internationale uitvindingoctrooien technologie en intellectueel eigendom.

## **3. Wat zijn het verschil tussen Finehope en binnenlandse peers?**

- 1) Kwaliteitsborging: Geavanceerde kwaliteitsplanning (APQP).
- 2) Finehope heeft een rijke ervaring met het bedienen van internationale grote ondernemingen.
- 3) Heeft een professioneel wetenschappelijk onderzoeksteam van polyurethaanmateriaal.
- 4) heeft onafhankelijk ontwerp, productie en innovatie vermogen van productie-apparatuur en mallen.
- 5) Heeft ingenieursteam die verantwoordelijk is voor het kwaliteitsborgingssysteem en de kwaliteitscontrole.

## **4. Wat zijn de verschillen tussen Finehope en Europees en U.S-peers?**

- 1) heeft een perfecte en rijpe ondersteunende supply chain.
- 2) Lagere vormkosten.
- 3) Hoog rendement van ontwikkelings- en ontwerpvermogen en korte procestijd.
- 4) Kostenvoordeel en goede service-attitude.

## **5. Wat zijn de applicaties van PU-producten?**

Auto, engineering machines, sport fitnessapparatuur, medische machines en dagelijkse huishoudelijke artikelen enzovoort.

## About us

Our Certification

### Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

### Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

### Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

### Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death. Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace." Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

### Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as a new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

### Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

### Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 20-20. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

### FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

# Production Device

## KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM) High Pressure Machine KRAUSS MAFFEI Made in Germany!

## Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

## Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

## CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

## Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

## 3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.

# Social Responsibility

- **Audited by Sedex**

(Supplier business ethics information exchange )

Labor standard · health and safety · Environmental protection · Business ethics practice
