

Feature:

mower suspension seat, replacement lawn mower seats:

- 1. real-leather texture on the surface*
- 2. fashion design with smooth lines*
- 3. feel comfortable with ergonomics design*
- 4. good elasticity*
- 5. easy installation*
- 6. high resistance to wear*
- 7. waterproof, anti-cracking, UV protection, anti-aging*
- 8. low production cost, molding in one*
- 9. protect the environment and degradable*

Specification

The self-skin product is made in one operation by means of reaction injection molding (RIM), and therefore it has both tenacious and dense outer skin and cellulite core. The thickness of the skin formed varies from several tenths to 5 mm and the skin density from 600 to 1200kg/m³ whereas the density of the inner core is hundreds of kilos per cubic meters. The skin layer and the core layer are an integral body. The continuous, smooth and soft skin layer can protect the foam core from mechanical damage. Semi hard foam series of integral PU varies in different density and hardness depending on the recipe. The lawn mower seats are made from this kind of material which are waterproof, UV protection.

Name	China Integral Skin polyurethane mower suspension seat, replacement lawn mower seats
Type	waterproof lawn tractor seats
Material	polyurethane(PU), with iron accessory
Density	180-200kg/m ³
Size	L*W*H (mm):431*429*63
Packing	each in PE bag and then in standard carton box
Payment Term	30% T/T in advance ,70% before the shipment
Min. Order	1000 pieces
Port	Xiamen
Certification	REACH, ROHS

Products applications

Our company

Finehope was founded in 2002 and the number of workers is more than 100, and the number of management group is 41 with the average age of 32. The company has a modern factory with an area of 7000 square meters, and it also has an office building with an area of 1000 square meters which combines modern and classical styles.

◆ Own the ability of independent improvement for the production equipments, and independent design and R & D ability of automatic moulds and jigs, lean automatic production lines.

FAQ

1. Why you choose Finehope?

Finehope is the most professional pu manufacturer in China, which has a professional R & D team, advanced PU production equipment, professional testing equipment and perfect quality management system. We have 12-year cooperation experience with CAT, FIAT, TVH, GGP and other famous enterprises. We provide them with one-stop service from R & D to production to satisfy their customization needs.

2. What are the advantages of choosing Finehope?

1. Product quality assurance, delivery guarantee, good after-sales service
2. Cost-effective, fast development efficiency, professional operation with integrity
3. Finehope will conduct all testing analysis and then work out testing standards to reduce quality standard dispute between customers and manufacturers.
4. Lean production management mode.
5. Help customers develop and design new products.
6. Has rich experience in the design and processing of pu products.

7. Finehope is a high-tech enterprise in China with domestic and international invention patents technology and intellectual property.

3. What are the applications of pu products?

car, engineering machinery, sports fitness equipment, medical machinery and daily household items and so on.

4. What are the differences between Finehope and domestic peers?

1. Quality assurance: advanced product quality planning(APQP).
2. Finehope has rich experience in serving international large enterprises.
3. Has professional scientific research team of polyurethane material.
4. Has independent design, manufacturing and innovation ability of production equipment and molds.
5. Has engineer team who is responsible for the quality assurance system and quality control.

5. What are the differences between Finehope and European and U.S peers?

1. Has sound and mature supporting supply chain
2. Lower mold costs
3. High efficiency of development and design ability and short process time.
4. Cost effective and good service attitude.
