

Feature:

replacement tractor seat, tractor covers:

1. Real leather texture on the surface
2. fashion design with smooth lines
3. feel comfortable with the ergonomics design
4. good elasticity
5. Easy installation
6. high wear resistance
7. waterproof, anti-cracking, UV protection, anti-aging
8. low cost of production, molded into a
9. protect the environment and degradable

Specification

The self-skin product is made in a single operation by means of reaction injection molding (RIM), and therefore has both tough and dense outer skin and core of cellulite. The skin thickness varies from several tenths to 5 mm and density of skin 600 to 1200 kg / m³, while the density of the inner core is hundreds of kilos per cubic meter. The skin layer and the core layer are an integral body. Continuous, smooth and soft skin layer can protect the foam core mechanical damage. Semi comprehensive series PU rigid foam varies in different density and hardness depending on the recipe. The cutter lawn seats are made of such material are waterproof, UV protection.

Name	China's integral skin polyurethane resistant to weathering the tractor seat replacement covers tractors
Write	Waterproof seat pad
Material	polyurethane (PU), with iron fitting
Density	180-200kg / m ³
Size	L * W * H (mm): 431 * 429 * 63
Packaging	each in PE bag then into cardboard box standard
Payment deadline	30% T / T in advance, 70% before shipment
Min. Order	1000 pieces
Port	Xiamen
Certification	REACH, RoHS

Products applications

Our company

Finehope was founded in 2002 and the number of workers is more than 100, and the number of management group is 41 with the the average age of 32. The company has a modern factory covering an area of 7,000 square meters, and also it features an office building with an area of 1000 square meters combining modern and classic styles.

◆ Own the ability of independent improvement for the production equipments, and independent design and R & D ability of automatic moulds and jigs, lean automatic production lines.

FAQ

1. Why Finehope choose?

Finehope is the most professional manufacturer of PU China, which has a professional R & amp; D, advanced production PU equipment, professional testing equipment and perfect quality management system. We have experience of 12 years of cooperation with the CAT, FIAT, TVH, and GGP other famous enterprises. We provide one-stop service of R & amp; amp; D production to meet your customization needs.

2 What are the advantages of choosing Finehope?

1. Product quality assurance, guarantee delivery, good after-sales service
2. Cost-effective, the efficiency of rapid development, professional operation with integrity
3. will Finehope perform all the analyzes of the evidence and then develop standards to reduce test quality standard dispute between customers and manufacturers.
4. Lean mode of production management.
5. Help customers develop and design new products.

6. Has rich experience in the design and manufacture of the PU.

7. Finehope is a high-tech enterprise in China, with international and national invention patents technology and intellectual property.

3. What applications are PU products?

car, engineering machinery, sports fitness equipment, medical machinery and everyday items household and so on.

4. What are the differences between Finehope and domestic partners?

1. Quality the guarantee of advanced planning of product quality (APQP).
2. Finehope has rich experience in serving large international companies.
3. Has professional scientific research team of polyurethane material.
4. Has independent production capability of designing, manufacturing and innovation equipment and molds.
5. Has engineer team that is responsible for the system of quality assurance and quality control.

5. What are the differences between Finehope and European and US counterparts?

1. Has sound mature supply chain support
2. lower mold costs
3. High efficiency development and design capability and short process.
4. Cost good attitude and effective service.
