

First, the product description

1. Product Features

PU car visor Chinese polyurethane foam polyurethane visor China manufacturer of polyurethane foam supplier

Rigid foam characteristics:

1. High strength, light weight, good flexibility and toughness;
2. the insulation effect is good, no distortion, no rejection, durable and strong;
3. With the wood, planing, nails, saws characteristics;
4. modeling diversification, according to customer demand, custom mold;
5. The color of the surface can be treated according to the customer's favorite color;
6. Wood effect: Grain effect of light natural wood, elegant and luxurious;
7. Anti-flame, by a special process, can reach not spontaneous, the property does not burn;
8. The fillers can be placed;

2, the product uses

(Structural foam) hard rigid products (widely used:

- 1 furniture industry: frames, bed frames, shelves, wardrobe / closet / decoration, door chair legs / carved chair;
 - 2, building and decoration materials: steel junction box of the street, a small statue / sculpture, carving pillars;
 3. Automobile industry: interior, rear luggage cover, automobile exhaust cover, trunk lid drive truck side of the trailer / hat and so on;
- Sports Equipment: hockey sticks, skis, skid plates, a fish, a racket handle;

- 5. Isolation: rigid foam insulation board freezer refrigerator / incubator;
- 6, other general purposes: cedar sculpture carved frames, trays, computer / television / radio housing, technical parts, decoration materials;

Second, we regard

1. Introduction

- We are polyurethane molded products manufacturer Manufacturer and was established in 2002. Our products are mainly exported to European and American markets.
- We have a professional production of polyurethane products as the goal, high quality requirements. The main reason customers choose us saw our extensive R & amp amp ;; R & amp capacity; D and companies of international brands, and ensure the quality of the experience and long term in shipping; amps.
- Division I after the Swiss SGS ISO9001-2008 certification, in accordance with the TS16949 system for quality control. Lean is that we pursue the goal of reducing waste, creating added value, sustained commitment to help customers control costs and create more value.

2, our brand customers

Located in various sectors and regions of the Americas, Europe, Asia see you, thank you!

3, our advantage

With ISO9001 A. Management of the company's Quality, continued to promote the ISO / TS 16949 quality management system, maintain and periodically reviewed to ensure their full, proper and effective functioning;

ISO / TS 16949 five basic tools: efficient use of APQP, FMEA, MSA, SPC, PPAP, so that our quality management and overall management level has been greatly improved, and ultimately to meet the demands of customers.

B. development of research equipment and polyurethane material has a professional R & amp amp; D; amp; R & amp team; D has been produced, including MDI, TDI, HDI, and PPDI and other polyether formula polyester systems,

covering all polyurethane systems formulations.

C. Equipment improving production equipment capable of self-improvement and the search for self-designed Jidoka molding device from lean meat eastbound.

Toyota lean production using TPS D. lean management model to improve production efficiency, reduce waste and reduce costs.

4, our production

- Polyurethane has the most advanced production equipment industry, including KraussMaffei machines and machine perfusion products various high / low pressure polyurethane and other production materials;
- Of automated assembly line operations, including the infusion line, the coating production lines, polishing line, because the line Shake mode.
- A mold design, production, innovation and experienced independent design and metal machining, plastic and polyurethane and other parties;

5, our testing equipment

- Finehope PU material has a range of testing equipment, and special engineering quality assurance and quality control.
- Finehope will be performed to detect the product analysis, mechanical analysis, products and materials, and ultimately the development of a product to be tested. Reducing standards in quality between customers and suppliers controversy.

6 we certicates

- Finehope Huaqiao University, Xiamen University and Research of polyurethane products and base station of

- postdoctoral training.
- Finehope national high-tech enterprises, with a number of domestic and foreign intellectual property rights of polyurethane patents.
- Finehope passed ISO9001 certification, Ali Baba, Ali Baba is a boutique firm of Prudential businesses.

Third, FAQ

1) Why did you choose Finehope

Finehope PU China is the most professional manufacturer, has a professional R & amp amp; D; amp; R & amp; team; D, PU production equipment, professional testing equipment and perfect quality management system. Our well-known CAT companies, Fiat, HST, MCP and so has 12 years of experience of cooperation. Division I to provide for the production and customized one-stop services to meet their needs.

2) Select Finehope benefits

Reduce your time, reduce personal problems, reduce costs (explicit and implicit costs).

3) the product dispensing cycle

Within 30 days of receipt of deposit and completed after the completion of the production of molds, production equipment and no period of 10 days queues (depending on the order quantity).

4) Freight Transportation

Qiyun, shipping, air transport (FedEx / UPS), according to customer requirements.

5) How to monitor freight transport

If Bill ocean bill of lading number will be provided to the customer, if it is to quickly provide the air waybill number.

6) How good product quality control

Quality first, to provide customers with high quality products is our mission. A professional team from beginning to

end, monitoring the proper product quality:

- All raw materials, parts and components must undergo a rigorous inspection before production;
- All staff must go through a formal training production test;
- All products must pass strict control and inspection in the production process;
- All products must be re-inspected before shipping.

Fourth, please contact us

For more information, please contact us. I was Chebi Zeng, Welcomes you, thank you!
