

Fábrica Personalizar PU Espuma moldada Bebê Mudando a almofada para bebê

Categoria: PU PAD, MAT

Material: PU poliuretano - espuma de pele integral

Densidade: 200-250kg / m³

Forma: De acordo com os requisitos do cliente para design de produto e molde personalizado

Cor: preto, cinza e outras cores podem ser personalizados a pedido.

Embalagem: caixa padrão

Termos de pagamento: depósito de 30%, pagamento e entrega.

MOQ: 1.000pcs.

Localização do transporte: China • Fujian • Xiamen

Conheça a certificação: Rosh, alcance, EN71-3, 6P ftálico

Outro: fábricas chinesas de OEM e processamento, especializada na produção de produtos PU, incluindo acessórios (ferro, madeira, plásticos, etc.).

Finehope obteve certificado ISO 9001 continuamente desde 2003.

Certificação IATF16949:

Finehope passou pela certificação de sistemas de gerenciamento de qualidade automotiva IATF16949 em 2021. Mais de 50 documentos garantem o progresso do desenvolvimento de novos produtos, a qualidade, tempo de entrega e custo de produção de ensaio e produção em massa.

Desde a cooperação entre Finehope e Caterpillar em 2007, a Finehope utilizou o sistema de gestão da qualidade automotiva para a nova introdução do produto, utilizando as cinco ferramentas da SPC, MSA, FMEA, APQP e PPAP, que ganharam louvor dos executivos da Caterpillar e estabeleceram um longo -term parceria até agora.

Our Advandages

Recurso de pesquisa e desenvolvimento de matéria-prima PU

Desde 2002, a Finehope foi comprometida com o design e fabricação de produtos de espuma moldados PU. A pesquisa independente e o desenvolvimento de materiais de fórmula e capacidade de produção estável são a base para a garantia de qualidade.

Finehope pode ajustar a fórmula do produto a qualquer momento de acordo com as necessidades personalizadas dos produtos personalizados dos clientes, como os requisitos de dureza, elasticidade, suporte, sensação, densidade, cor e outras propriedades físicas e químicas, e podem fazer requisitos de formulação em conformidade com as leis e regulamentos de vários países. Claro, uma boa fórmula também deve considerar o melhor desempenho de custo. Para novos projetos, a capacidade de desenvolver formulações do PU é uma condição fundamental para garantir a qualidade do desenvolvimento do produto, tempo de entrega e custo.

Design de equipamentos de automação e capacidades de fabricação

A capacidade de Finehope de projetar e fabricar equipamentos de automação é rara na indústria. Ao participar do projeto de novos equipamentos de mistura de injeção de PU e a transformação de automação da linha de produção, para garantir que, sob a concorrência do dividendo demográfico da China, seja reduzido e os custos de trabalho continuam a subir, a eficiência da produção também pode ser melhorada, trabalho e material os custos podem ser reduzidos. Além disso, as capacidades contínuas de design e fabricação de equipamentos-chave, como luminárias, equipamentos especiais e moldes automáticos também são as razões pelas quais a Finehope está em uma posição de liderança em todos os aspectos. A capacidade de Finehope de reduzir continuamente os custos e inovar produtos pode ajudar os clientes a trazer maior valor. Portanto, é um parceiro confiável de longo prazo de muitas empresas da Fortune 500 e liderando empresas da indústria.

Capacidade de gestão científica

Finehope enfatiza a importância do Sistema de Produção Toyota e do modelo de coaching corporativo para otimizar a eficiência da gestão. Melhoria contínua A eficiência e a qualidade de todos os funcionários, a gestão e o pessoal de produção foram efetivamente e continuamente melhoradas, os custos de gestão e produção foram continuamente reduzidos, mas mais importantes do que a eficiência e o custo é o cultivo do crescimento dos funcionários por meio de melhoria contínua, porque isso é o núcleo do desenvolvimento sustentável corporativo.

O refinamento de Finehope reduz o problema para os clientes, porque reduz a negligência no sistema de processo humano e a capacidade de acumular continuamente a experiência profissional, que pode garantir que todos os novos projetos sejam concluídos no menor tempo.

Famous customer

Cooperation experience

Perguntas frequentes

1. Por que você escolhe Finehope?

Finehope é o mais profissional fabricante PU na China, que tem uma equipe profissional de P & D, equipamentos avançados de produção PU, equipamento de teste profissional e sistema de gestão de qualidade perfeita. Temos uma experiência de cooperação de 12 anos com CAT, FIAT, TVH, Stiga e outras empresas famosas. Nós fornecemos-lhes um serviço de uma etapa da P & D para a produção para satisfazer suas necessidades de personalização.

2. Quais são as vantagens da escolha do Finehope?

- 1) Garantia de qualidade do produto, garantia de entrega, bom serviço pós-venda.
- 2) eficiência de desenvolvimento rápida e rápida, operação profissional com integridade.
- 3) Finehope conduzirá todas as análises de teste e, em seguida, elaborará padrões de teste para reduzir a disputa padrão de qualidade entre clientes e fabricantes.
- 4) Modo Lean Gerenciamento de Produção.
- 5) Ajude os clientes a desenvolver e projetar novos produtos.
- 6) Tem rica experiência no design e processamento de produtos PU.
- 7) Finehope é uma empresa de alta tecnologia na China com doméstica e tem tecnologia de patentes de invenção internacional e intelectual propriedade.

3. Qual é a diferença entre Finehope e pares domésticos?

- 1) Garantia de qualidade: planejamento de qualidade avançado (APQP).
- 2) Finehope tem experiência rica em atender grandes empresas internacionais.
- 3) Tem equipe de pesquisa científica profissional de material de poliuretano.
- 4) Tem design independente, fabricação e inovação capacidade de equipamentos de produção e moldes.
- 5) Tem equipe de engenheiro que é responsável pelo sistema de garantia de qualidade e controle de qualidade.

4. Quais são as diferenças entre Finehope e Europeu e Pares U.S?

- 1) Tem cadeia de suprimentos de suporte perfeita e madura.
- 2) menores custos de molde.
- 3) Alta eficiência da capacidade de desenvolvimento e design e curto processo de processo.
- 4) Vantagem de custo e boa atitude de serviço.

5. Quais são as aplicações de produtos PU?

Carro, máquinas de engenharia, equipamento de fitness esportivo, máquinas médicas e itens domésticos diários e assim por diante.

About us

Our Certification

Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death.

Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace."

Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 2020. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM)
High Pressure Machine
KRAUSS MAFFEI
Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
