

#### Tapetes para troca de fraldas personalizados de alta densidade e impermeáveis de fábrica

Categoria: almofada de PU, tapete

Material: Poliuretano PU - Espuma de pele integral

Densidade: 200-250kg/m3 Venda imperdível tapete de mudança impermeável para bebê de alta

densidade para bebê

Forma: De acordo com os requisitos do cliente para design de produto e molde personalizado

Cor: preto, cinza e outras cores podem ser personalizadas sob consulta.

Embalagem: caixa padrão

Condições de pagamento: depósito de 30%, pagamento e entrega.

MOQ: 1,000pcs

Local de envio: China • Fujian • Xiamen

Conheça a certificação: RoSH, REACH, EN71-3, ftálico 6P

Outros: fábricas chinesas de OEM e processamento, especializadas na produção de produtos PU, incluindo acessórios (ferro, madeira, plásticos, etc.).

#### A Finehope obteve o certificado ISO 9001 continuamente desde 2003.

#### Certificação IATF16949:

A Finehope passou na certificação de sistemas de gerenciamento de qualidade automotiva IATF16949 em 2021. Mais de 50 documentos garantem o progresso do desenvolvimento de novos produtos, a qualidade, o prazo de entrega e o custo dos produtos de teste e produção em massa.

Desde a cooperação entre a Finehope e a Caterpillar em 2007, a Finehope usou o sistema de gerenciamento de qualidade automotiva para a introdução de novos produtos, usando as cinco ferramentas de SPC, MSA, FMEA, APQP e PPAP, que ganharam elogios dos executivos da Caterpillar e estabeleceram um longo parceria de longo prazo até agora.

# **Our Advandages**

# Recursos de pesquisa e desenvolvimento de matérias-primas de PU

Desde 2002, a Finehope está comprometida com o design e fabricação de produtos de espuma moldada PU. Pesquisa independente e desenvolvimento de materiais de fórmula e capacidade de produção estável são a base para garantia de qualidade.

A Finehope pode ajustar a fórmula do produto a qualquer momento de acordo com as necessidades personalizadas dos produtos personalizados dos clientes, como os requisitos de dureza, elasticidade, suporte, sensação, densidade, cor e outras propriedades físicas e químicas, e pode fazer requisitos de formulação em conformidade com as leis e regulamentos de vários países. Claro, uma boa fórmula também deve considerar o melhor desempenho de custo. Para novos projetos, a capacidade de desenvolver formulações de PU é uma condição fundamental para garantir a qualidade, prazo de entrega e custo do desenvolvimento do produto.

Capacidade de gestão científica

Finehope enfatiza a importância do Sistema Toyota de Produção e do Modelo de Coaching Corporativo para otimizar a eficiência da gestão. Melhoria contínua a eficiência e a qualidade de todos os funcionários, o pessoal de gerenciamento e produção foi aprimorado de forma eficaz e contínua, os custos de gerenciamento e produção foram reduzidos continuamente, mas mais importante do que eficiência e custo é o cultivo do crescimento dos funcionários por meio da melhoria contínua, porque esse é o núcleo do desenvolvimento sustentável corporativo.

Recursos de design e fabricação de equipamentos de automação

A capacidade da Finehope de projetar e fabricar equipamentos de automação é rara na indústria. Ao participar do projeto de novos equipamentos de mistura de injeção de PU e da transformação de automação da linha de produção, para garantir que, sob a concorrência da China, o dividendo demográfico seja reduzido e os custos de mão-de-obra continuam a aumentar, a eficiência da produção também pode ser melhorada, os custos de mão-de-obra e materiais podem ser reduzidos. Além disso, as capacidades contínuas de design e fabricação de equipamentos-chave, como acessórios, equipamentos especiais e moldes automáticos, também são as razões pelas quais a Finehope está em uma posição de liderança em todos os aspectos.

A capacidade da Finehope de reduzir custos continuamente e inovar produtos pode ajudar os clientes a agregar maior valor. Portanto, é um parceiro confiável de longo prazo de muitas empresas da Fortune 500 e empresas líderes do setor.

O refinamento da Finehope reduz o problema para os clientes, porque reduz a negligência no sistema de processo humano e a capacidade de acumular continuamente experiência profissional, o que pode garantir que todos os novos projetos sejam concluídos no menor tempo possível.

# Famous customer

## Cooperation experience

# **Perguntas frequentes**

## 1. Por que você escolhe Finehope?

Finehope é o fabricante de PU mais profissional da China, que possui uma equipe profissional de P&D, equipamento avançado de produção de PU, equipamento de teste profissional e sistema de gerenciamento de qualidade perfeito. Temos 12 anos de experiência em cooperação com CAT, FIAT, TVH, STIGA e outras empresas famosas. Fornecemos a eles um serviço de uma etapa, de P&D à produção, para satisfazer suas necessidades de personalização.

#### 2. Quais são as vantagens de escolher Finehope?

- 1) garantia de qualidade do produto, garantia de entrega, bom serviço pós-venda.
- 2) eficiência de desenvolvimento rápida e econômica, operação profissional com integridade.
- 3) A Finehope conduzirá todas as análises de teste e, em seguida, elaborará padrões de teste para reduzir a disputa de padrão de qualidade entre clientes e fabricantes.
- 4) Modo de gerenciamento de produção enxuta.
- 5) Ajude os clientes a desenvolver e projetar novos produtos.
- 6) Possui vasta experiência em design e processamento de produtos PU.
- 7) Finehope é uma empresa de alta tecnologia na China com tecnologia doméstica e internacional de patentes de invenção e intelectual propriedade.

#### 3. Quais são as diferenças entre Finehope e pares domésticos?

- 1) Garantia da qualidade: planejamento avançado da qualidade (APQP).
- 2) Finehope tem uma vasta experiência em atender grandes empresas internacionais.

- 3) Possui equipe profissional de pesquisa científica de material de poliuretano.
- 4) Possui capacidade independente de design, fabricação e inovação de equipamentos e moldes de produção.
- 5) Possui equipe de engenheiros responsáveis pelo sistema de garantia de qualidade e controle de qualidade.

## 4. Quais são as diferenças entre o Finehope e os pares europeus e americanos?

- 1) Possui uma cadeia de suprimentos de suporte perfeita e madura.
- 2) Custos de molde mais baixos.
- 3) Alta eficiência de desenvolvimento e capacidade de design e tempo de processo curto.
- 4) Vantagem de custo e boa atitude de serviço.

## 5. Quais são as aplicações dos produtos PU?

Carro, máquinas de engenharia, equipamentos de ginástica esportiva, máquinas médicas e utensílios domésticos diários e assim por diante.

# About us

# Our Certification (

#### Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier.

Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

# Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's indepth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

#### Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growthoriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

#### Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death.

Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace."

Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damagend and affect delivery.

#### Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau.

General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are

an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 20-20. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries.

Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary.

Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

#### FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products.

Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

#### Production Device

#### KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

# Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic pulses of fully automatic production ines since 2010. These production lines reduce production costs and meet customer delivery requirements.

#### Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

#### CNC Machine

Finehope has continued to purchase CNC equipment since 20-16. CNC (Computer Numerically Controlled) machining is a manufacturing process in which preprogrammed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

#### Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

#### 3D printer

Finehope started to purchase 3D printers in 20-15. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
