

Фабрика настроить пену плесень ребенка, меняющая коврик для ребенка

Категория: PU Pad, Mat

Материал: PU полиуретан - интегральная пена для кожи

Плотность: 200-250 кг / м³

Форма: в соответствии с требованиями заказчика для дизайна продукта и пользовательской формы

Цвет: черный, серый и другие цвета могут быть настроены на запрос.

Упаковка: стандартная коробка

Условия оплаты: 30% депозита, оплата и доставка.

MOQ: 1,000 шт

Расположение доставки: Китай • Фуцзянь • Сямынь

Встречайте сертификацию: ROHS, REACH, EN71-3, PHTALIC 6P

Другое: китайские заводы OEM и обработки, специализирующиеся на производстве продуктов PU,

В том числе аксессуары (железо, дерево, пластмассы и т. Д.).

Finehope получила сертификат ISO 9001 непрерывно с 2003 года.

IATF16949 Сертификация:

Finehope прошла сертификацию систем управления качеством автомобилей IATF16949 в 2021 году. Более 50 документов гарантируют прогресс нового развития продукции, качества, срока доставки и стоимости продукции пробной и массовой продукции. С момента сотрудничества между Finehope и Caterpillar в 2007 году Finehope использовал систему управления качеством автомобилей для нового продукта, используя пять инструментов SPC, MSA, FMEA, APQP и PPAP, которые выиграли похвалы от руководителей Caterpillar и установили долго Товарное партнерство пока.

Our Advandages

ПУ сырьевые возможности исследования и развития
 С 2002 года Finehope был повержен проектированию и изготовлению PU Founded Pape Products. Независимые исследования и разработки материалов формул и стабильных производственных мощностей являются основой для обеспечения качества.
 Finehope может настроить формулу продукта в любое время в соответствии с индивидуальными потребностями персонализированных продуктов клиентов, таких как требования к твердости, эластичности, поддержке, ощущению, плотности, цвета и других физико-химических свойствах, а также могут внести требования к формулированию формулы. с законами и нормативными актами различных стран. Конечно, хорошая формула также должна рассмотреть лучшие результаты затрат. Для новых проектов способность разработать формулировки PU представляет собой ключевое условие обеспечения качества развития продукта, времени доставки и стоимости.

Оборудование для автоматизации и производственные возможности

Способность Finehope для проектирования и производственного автоматического оборудования редко встречается в отрасли. Участвуя в разработке нового оборудования для смешивания для инъекций PU и трансформации автоматизации производственной линии, для обеспечения того, чтобы в конкурсе демографического дивиденда Китая снижался, а затраты на трудоустройство продолжат расти, эффективность производства также может быть улучшена, труда и материалы Стоимость может быть уменьшена. Кроме того, непрерывный дизайн и производственные возможности ключевого оборудования, такого как приспособления, специальное оборудование и автоматические формы, также являются причинами, по которым Finehope находится в лидирующем положении во всех аспектах. Способность Finehope постоянно снижать затраты и продукты инноваций могут помочь клиентам приносить большую ценность. Поэтому он является надежным долгосрочным партнером многих компаний Fortune 500 и ведущих компаний в отрасли.

Научные способности управления

Finehore подчеркивает важность системы производства Toyota и модели корпоративной тренировки для оптимизации эффективности управления. Непрерывное улучшение эффективности и качества всех сотрудников, управленческих и производственных кадров были эффективно и постоянно улучшены, управление и производственные затраты были постоянно сокращены, но важнее, чем эффективность и стоимость - это выращивание роста сотрудников посредством постоянного улучшения, потому что это ядро корпоративного устойчивого развития.

Уточнение Finehore снижает проблему для клиентов, потому что она снижает небрежность в системе человеческой процессу и способность постоянно накапливаться профессиональный опыт, что может обеспечить, чтобы все новые проекты были завершены в кратчайшие сроки.

Вопросы-Ответы

1. Почему вы выбираете Finehore?

Finehore является самым профессиональным производителем PU в Китае, который имеет профессиональную команду R & D, продвинутое производственное оборудование PU, профессиональное оборудование для испытаний и идеальной системой управления качеством. У нас есть 12-летний опыт сотрудничества с кошкой, Fiat, TVH, STIGA и другими известными предприятиями. Мы предоставляем им одноступенчатую службу от R & D до производства, чтобы удовлетворить их потребности на заказ.

2. Каковы преимущества выбора Finehope?

- 1) Обеспечение качества продукции, гарантия доставки, хорошая послепродажное обслуживание.
- 2) экономически эффективная, быстрая эффективность развития, профессиональная операция с целостностью.
- 3) Finehope будет проводить все анализ тестирования, а затем выработать стандарты тестирования для снижения стандартного спора качества между Клиенты и производители.
- 4) Режим постного производства.
- 5) Помогите клиентам разработать и разработать новые продукты.
- 6) имеет богатый опыт проектирования и обработки продуктов PU.
- 7) Finehope - это высокотехнологичное предприятие в Китае с отечественным и имеющим международные патенты на изобретение и интеллектуальные имущество.

3. Какую разницу между Finehope и домашними сверстниками?

- 1) Обеспечение качества: Расширенное планирование качества (APQP).
- 2) Finehope имеет богатый опыт обслуживания международных крупных предприятий.
- 3) имеет профессиональную научно-исследовательскую группу полиуретанового материала.
- 4) имеет независимый дизайн, изготовление и инновационные способности производственного оборудования и форм.
- 5) Имеет инженерную команду, которая отвечает за систему обеспечения качества и контроль качества.

4. Каковы различия между Finehope и European и U.s Peers?

- 1) Имеет идеальную и зрелую поддержку цепочкой поставок.
- 2) более низкие затраты на форму.
- 3) Высокая эффективность способности разработки и дизайна и короткое время процесса.
- 4) Стоимость преимущества и хорошее отношение обслуживания.

5. Каковы приложения продуктов PU?

Автомобиль, инженерные машины, спортивное фитнес-оборудование, медицинское оборудование и ежедневные домашние предметы и так далее.

About us

Our Certification

Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death. Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace." Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as a new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 2020. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

KRAUSS MAFFEI

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM) High Pressure Machine KRAUSS MAFFEI Made in Germany!

Self-invented fully automatic production line

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

Welding Robots

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

CNC Machine

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

Mould Release Agent Painting Robot

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

3D printer

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.
