

## Горячая продажа пеленальный коврик высокой плотности водонепроницаемый для ребенка

Категория: ПУ коврик, коврик

Материал: Полиуретан PU - Интегральная пена кожи

Плотность: 200-250кг/м<sup>3</sup>

Форма: в соответствии с требованиями заказчика к дизайну продукта и индивидуальной пресс-форме

Цвет: черный, серый и другие цвета могут быть изменены по запросу.

Упаковка: стандартная коробка

Условия оплаты: 30% предоплата, оплата и доставка.

Минимальный заказ: 1000 шт.

Место доставки: Китай • Фуцзянь • Сямэнь

Соответствует сертификации: RoSH, REACH, EN71-3, фталевый 6P

Другое: китайские OEM и перерабатывающие заводы, специализирующиеся на производстве изделий из полиуретана,

включая аксессуары (железо, дерево, пластик и т. д.).

**Finehore постоянно получает сертификат ISO 9001 с 2003 года.**

**Сертификация IATF16949:**

Finehore прошла сертификацию автомобильных систем управления качеством IATF16949 в 2021 году. Более 50 документов гарантируют ход разработки новой продукции, качество, сроки поставки и стоимость пробного и серийного производства продукции. С момента начала сотрудничества между Finehore и Caterpillar в 2007 году Finehore использовала систему управления качеством в автомобильной промышленности для внедрения нового продукта, используя пять инструментов SPC, MSA, FMEA, APQP и PPAP, которые получили высокую оценку руководителей Caterpillar и установили длительную -срочное партнерство до сих пор.

## Our Advandages

**Возможности исследования и разработки полиуретанового сырья**

С 2002 года Finehore занимается разработкой и производством изделий из формованного пенополиуретана. Независимые исследования и разработка рецептурных материалов и стабильные производственные мощности являются основой для обеспечения качества. Finehore может скорректировать формулу продукта в любое время в соответствии с индивидуальными потребностями клиентов, персонализированными продуктами, такими как требования к твердости, эластичности, поддержке, ощущению, плотности, цвету и другим физическим и химическим свойствам, а также может составить требования к рецептуре в соответствии с законами и правилами различных стран. Конечно, хорошая формула также должна учитывать наилучшие экономические показатели. Для новых проектов способность разрабатывать составы полиуретана является ключевым условием для обеспечения качества разработки продукта, сроков поставки и стоимости.

**Возможности проектирования и производства оборудования автоматизации**

Способность Finehore проектировать и производить оборудование для автоматизации является редкостью в отрасли. Участвуя в разработке нового оборудования для литья под давлением полиуретана и автоматизируя преобразование производственной линии, мы обеспечиваем сокращение демографического дивиденда Китая в условиях конкуренции. и затраты на рабочую силу продолжают расти, эффективность производства также может быть повышена, затраты на рабочую силу и материалы могут быть снижены. Кроме того, непрерывное проектирование и производственные возможности ключевого оборудования, такого как приспособления, специальное оборудование и автоматические пресс-формы, также являются причинами, по которым Finehore занимает лидирующие позиции во всех аспектах. Способность Finehore постоянно снижать затраты и вводить новшества в продукты может помочь клиентам повысить ценность. Таким образом, Finehore является надежным долгосрочным партнером многих компаний из списка Fortune 500 и ведущих компаний отрасли.

**Способность к научному управлению**

Finehore подчеркивает важность производственной системы Toyota и модели корпоративного коучинга для оптимизации эффективности управления. Непрерывное улучшение эффективности и качества всех сотрудников, управленческого и производственного персонала эффективно и постоянно совершенствуется, управленческие и производственные затраты постоянно снижаются, но более важным, чем эффективность и затраты, является культивирование роста сотрудников посредством постоянного улучшения, потому что это является основой корпоративного устойчивого развития.

Уточнение Finehore уменьшает количество проблем для клиентов, поскольку уменьшает небрежность в системе человеческих процессов и способность постоянно накапливать профессиональный опыт, что может гарантировать, что все новые проекты будут завершены в кратчайшие сроки.

## Часто задаваемые вопросы

### 1. Почему вы выбираете Finehore?

Finehore является самым профессиональным производителем полиуретана в Китае, который имеет профессиональную команду по исследованиям и разработкам, передовое оборудование для производства полиуретана, профессиональное испытательное оборудование и безупречную систему управления качеством. У нас есть 12-летний опыт сотрудничества с CAT, FIAT, TVH, STIGA и другими известными предприятиями. Мы предоставляем им одноэтапное обслуживание от исследований и разработок до производства, чтобы удовлетворить их потребности в настройке.

## **2. Каковы преимущества выбора Finehore?**

- 1) Обеспечение качества продукции, гарантия доставки, хорошее послепродажное обслуживание.
- 2) Рентабельность, быстрая эффективность разработки, профессиональная работа с целостностью.
- 3) Finehore проведет весь анализ тестирования, а затем разработает стандарты тестирования, чтобы уменьшить споры о стандартах качества между клиентами и производителями.
- 4) Режим управления бережливым производством.
- 5) Помощь клиентам в разработке и разработке новых продуктов.
- 6) Имеет богатый опыт в разработке и обработке изделий из полиуретана.
- 7) Finehore - высокотехнологичное предприятие в Китае с отечественными и международными патентами на изобретения, технологиями и интеллектуальными технологиями. свойство.

## **3. В чем отличие Finehore от отечественных аналогов?**

- 1) Обеспечение качества: расширенное планирование качества (APQP).
- 2) Finehore имеет богатый опыт обслуживания крупных международных предприятий.
- 3) Имеет профессиональную научно-исследовательскую группу полиуретанового материала.
- 4) Имеет независимый дизайн, производство и инновационные возможности производственного оборудования и пресс-форм.
- 5) Имеет команду инженеров, которая отвечает за систему обеспечения качества и контроль качества.

## **4. Каковы различия между Finehore и европейскими и американскими аналогами?**

- 1) Имеет совершенную и зрелую поддерживающую цепочку поставок.
- 2) Более низкие затраты на пресс-формы.
- 3) Высокая эффективность разработки и возможности проектирования и короткое время процесса.
- 4) Ценовое преимущество и хорошее отношение к обслуживанию.

## **5. Каковы области применения изделий из полиуретана?**

Автомобиль, инженерная техника, спортивное оборудование для фитнеса, медицинская техника и предметы домашнего обихода и так далее.

## About us

Our Certification

### Alibaba Verified Supplier Certificate

Since 2007, Finehope has continuously passed TUV certification and has become an Alibaba Verified Supplier. Verified Supplier is a high-quality supplier verified by the authoritative strength of Alibaba platform. Through online and offline on-site audits, the merchants' corporate qualifications, product qualifications, corporate capabilities, and other comprehensive strengths are reviewed and verification.

### Integration of Informationization and Industrialization Management System Certificate

The certificate is assessed by the Xiamen Municipal Government and issued by the Shanghai Academy of Quality Management Science. This certificate reflects the level of Finehope's in-depth integration of informatization and industrialization. Finehope will continue to take a new path of industrialization; use information technology as the support to transform and upgrade traditional kinetic energy, cultivate new kinetic energy, and pursue a sustainable development model.

### Xiamen Growth-oriented Micro, Small & Medium Enterprises

Finehope has been rated as "Xiamen Growth-oriented Micro, Small & Medium Enterprises" since 2019. It is the scoring result of the Xiamen Municipal Government based on Finehope's various comprehensive indicators, growth models, brand strength in the industry, and good corporate reputation, then issue this certificate. It is a proof that Finehope stands out among thousands of small and medium-sized enterprises in the city.

### Work Safety Standardization Certificate

Manufacturing safety is important to prevent or lessen the risk of workplace injury, illness, and death. Finehope General Manager Tiger Side: "Only those manufacturing facilities which continue to emphasize safety as a top-level issue will remain highly productive and competitive in today's marketplace." Finehope must be proactive about employee safety. Without a focus on safety, can place their employees at risk, cause fire and face expensive property damage and affect delivery.

### Xiamen Science And Technology Little Giant Leading Enterprise

Since 2019, Finehope has been selected as the leading company of Xiamen Science and Technology Little Giant. This certificate was jointly issued by five departments of the Xiamen Municipal Government. The selection criteria focus on strategic emerging industries such as new generation information technology, high-end equipment, new materials, new energy, biology and new medicine, energy saving and environmental protection, and marine high-tech. Winning this honor shows that Finehope is at the forefront of the industry in new information technology and new materials.

### Fujian Province Pollution Discharge Permit

Pollution discharge permits are the "identity cards" of all entities involved in the discharge of pollutants and are issued by the Xiamen Municipal Environmental Protection Bureau. General Secretary Xi Jinping emphasized that "the ecological environment should be protected like the eyes, and the ecological environment should be treated like life." Premier Li Keqiang said: "Environmental pollution is a hazard to the people's livelihood and the pain of the people's hearts. It must be dealt with an iron fist." The Chinese government's determination to improve the environmental quality of the atmosphere, water bodies, and soil cannot be ignored. Pollution permits are an important factor that must be considered in international procurement. Otherwise, the factory has hidden dangers and will be ordered to stop production, which will affect the delivery date. It can be seen that Finehope is a manufacturer with long-term cooperation and stable delivery.

### Xiamen Specialized, Refining, Differentiate, Innovative SMEs

Finehope has been rated as "Xiamen Specialized, Refining, Differentiate, Innovative SMEs" since 2020. "Specialized, Refining, Differentiate, Innovative" refers to SMEs with outstanding main business, strong professional capabilities, strong R&D and innovation capabilities, and development potential. Mainly concentrated in the new generation of information technology, high-end equipment manufacturing, new energy, new materials, biomedicine and other mid-to-high-end industries. Leading in the same industry in terms of market, quality, efficiency or development, with advanced and exemplary. Through this certificate, the government emphasizes and recognizes finehope's "specialization, special innovation" is to encourage innovation and achieve specialization, reform, and specialization. Finehope should continue to take "specialization, special innovation" as the direction, focus on their main business, practice hard work, strengthening innovation, and build the company into a "single champion" or "supporting expert" with unique skills.

### FDA certification

Food and Drug Administration (FDA) established in 1906 is a government agency under the passage of the Federal Food and Drugs Act. The FDA Certification is mandatory for placing the products in the USA. This major responsibility of FDA is protecting and managing public health and related authorities by assuring the safety and security of human and biologically generated product. The FDA regulates products including biological products, medical services, cosmetics, prescription drugs and non-prescription drugs, veterinary drugs, tobacco and other radiation emitting products. Finehope has passed FDA certification every year since 2018. FDA approval means that the products produced by Finehope have obtained foreign government certificates (CFG) and can enter the global market smoothly.

Production Device

**KRAUSS MAFFEI**

Finehope has successively introduced many of the world's most advanced German KraussMaffei high-pressure injection machines since 2010.

Reaction Injection Molding (RIM) High Pressure Machine KRAUSS MAFFEI Made in Germany!

**Self-invented fully automatic production line**

Finehope has independently developed a number of fully automatic P-U injection production lines since 2010. These production lines reduce production costs and meet customer delivery requirements.

**Welding Robots**

Since 2016, Finehope has continued to purchase welding robots and automatic fixture turntables for welding metal parts. The independent processing of accessories saves the waiting time and procurement cost of outsourcing processing.

**CNC Machine**

Finehope has continued to purchase CNC equipment since 2016. CNC (Computer Numerically Controlled) machining is a manufacturing process in which pre-programmed computer software dictates the movement of factory tools and machinery. Using this type of machine versus manual machining can result in improved accuracy, increased production speeds, enhanced safety, increased efficiency and most importantly, help customers save costs and improve product quality.

**Mould Release Agent Painting Robot**

Since 2019, Finehope has purchased robots for spraying water-based release agents to improve the working environment, improve spraying quality and material utilization, and reduce labor costs.

**3D printer**

Finehope started to purchase 3D printers in 2015. 3D printing can realize rapid proofing of new product prototypes and templates for resin molds, and can also be used for faster and cheaper small batch production.

# Social Responsibility

- **Audited by Sedex**

(Supplier business ethics information exchange )

Labor standard · health and safety · Environmental protection · Business ethics practice

- **Public-spirited**

Voluntary tree planting after Super Typhoon Meranti in 2016
